Description :

PDF-0ab2f | Millions upon millions of salmon and steelhead once filled California streams, providing a plentiful and sustainable food resource for the original peoples of the region. But over the years, dams and irrigation diversions have reduced natural spawning habitat from an estimated 6,000 miles to fewer than 300. River pollution has also hit hard at fish populations, which within recent decades have dim... *California's Salmon and Steelhead: The Struggle to Restore an Imperiled Resource*
