Description :

PDF-859b1 | How Americans make energy choices, why they think locally (not globally), and how this can shape U.S. energy and climate change policy. How do Americans think about energy? Is the debate over fossil fuels highly partisan and ideological? Does public opinion about fossil fuels and alternative energies divide along the fault between red states and blue states? And how much do concerns about climate c... *Cheap and Clean: How Americans Think about Energy in the Age of Global Warming (MIT Press)*
