Description :

PDF-bb19b | The book covers a wide range of topics, yet essential, in Computational Finance (CF), understood as a mix of Finance, Computational Statistics, and Mathematics of Finance. In that regard it is unique in its kind, for it touches upon the basic principles of all three main components of CF, with hands-on examples for programming models in R. Thus, the first chapter gives an introduction to the Princ... *Computational Finance: An Introductory Course with R (Atlantis Studies in Computational Finance and Financial Engineering)*
