Description :

PDF-1805e | Direct3D is a graphics application programming interface (API) for Microsoft Windows. Direct3D is used to render three-dimensional graphics in applications where performance is important, such as games. Direct3D uses hardware acceleration if it is available on the graphics card, allowing for hardware acceleration of the entire 3D rendering pipeline or even only partial acceleration. Direct3D expos... *Direct3D : For Starters*
